- Tamil

PROFILE

Aspiring web developer eager to leverage academic foundation in BSc-CS to kickstart a career in web development. Proficient in front-end technologies such as HTML, CSS, and JavaScript, with a strong understanding of responsive design principles. Enthusiastic learner with a passion for staying updated on emerging web technologies and trends. Skilled in collaborating within teams to solve problems and deliver high-quality projects. Seeking an opportunity to apply and further develop skills in a dynamic web development environment.

PROJECT   PRESENT

Project - 1
Online Audio Visual Event Management and Booking System

- Event Management Interface: Designed an intuitive interface for event organizers to list details including event type, venue, date, and audio-visual equipment requirements.
- Audio-Visual Equipment Catalog: Created a catalog of available audio-visual equipment with detailed specifications, allowing users to select and reserve equipment for their events.
- Booking System: Implemented a booking system enabling users to select available dates, times, and equipment for their events, with real-time availability checks.
- The CRUD contact form allows users to submit their details and queries, storing the data securely in the database for future reference. Admins can access these submissions to view, update, or delete records as needed, ensuring efficient management of communication.

TECHNOLOGIES USED:

- Frontend: HTML, CSS, JavaScript, Bootstrap
- Backend: PHP, SQL (MySQL relational database)

TOOLS

- Visual Studio
- Xampp Server

Project - 2
React UI Portfolio

- A React-based portfolio is an interactive and modern way to showcase your skills, projects, and achievements. It features a clean, responsive design optimized for all devices, allowing visitors to explore your professional journey seamlessly. This portfolio highlights sections like an "About Me" overview, a dynamic projects gallery with detailed descriptions, a skills section with visual indicators, and a contact form for inquiries. Leveraging React's component-based architecture, the portfolio ensures smooth navigation, fast loading times, and a visually engaging experience.

TECHNOLOGIES USED:

- Frontend: REACT.JS, HTML,CSS,JAVASCRIPT

Non-IT EXPERIENCE   2021- 2023

- I have two and half years of hands-on experience in sound and light production for stage shows and live events,
- Installed, configured, and operated advanced sound systems and lighting rigs for diverse events.Collaborated with event organizers, performers, and technical teams to design and execute tailored audio. Conducted regular maintenance and repair of sound and lighting equipment, ensuring reliability and extending equipment.

SOFT SKILLS

- Create webpages
- Learning new things
- Time management
- Teamwork
- Adaptability
